### MC 450k Program

- So what about the client that's not at the \$5M mark or 925K level
- we have created a smaller starter level
- \$450,000 USD To Enter. No more and no less
  - Getting this type of return with this level of guarantee on this smaller amount is another example of an atypical opportunity.
  - HMS-GC is determined to move people forward in 2021.
  - These protection and earnings are typically reserved for only 9 and 10 figure clientele with history and reputation with the trade desks
- This program is One bullet then 3 Months of Trading.
- In this jump start program the Client is paid 25% net per bullet &
- 25% net on the 3 months of trading.
- This program is a little different on payout the Principal
  - it's returned to client along with the 100% profit but this time at the end of the program cycle.
  - So it is going to stay a little longer in the 0 0 risk environment but
  - for those at this level, again, this is unheard of and not available anywhere else
