MC 925k

- Requires \$925,000 USD To Enter. They Only accepted 925 nothing more and nothing less
- This program is a bullet trade 1st mth followed by 11 Months of Trading.
- The Client Nets 50% on the bullet &
- 50% on each of the 11 months of trading thereafter.
- This time the Principal is returned to the client in 30-40 banking days;
 - Once again, an atypical layer of protection we have put in place
- Having the principal returned before profits are even starting to be paid out is unheard of.
- It pays out monthly as its not compounding, so after the 12 mths- 600% Net has been Received
