HMS Funding Group MC Program Presentation

MC BTC

We are very pleased with our new MicroCap Programs and we believe we offer value that you cannot find anywhere else.

BUT we are especially pleased with our Bitcoin Program

For those that want to deal with large lрге quantities we have a Large Cap program for you but this MicroCap is helpful for a lot of folks.

Its one thing to have a bunch of crypto currency but still another to be able to use it as you want like mainstream currency.

You may be hard pressed to buy a house or a new car with bitcoin just yet!! but what if there was a way to easily and quickly convert it to USD? Or to leverage it too buy more BTC with no out of pocket expense?

This program is all about that and then leveraging it as well

- If the client wants to submit BTCs valued between \$450KUSD and \$3M USD, we will accept that asset in lieu of mainstream currency! And place it into the MC 450K Program
- The client will receive a 100% Net profit at the end of the 3 and half to 4-month cycle.
- To avoid all manner of debate on the current value of the bitcoin, due to fluctuating markets, we will use the Luxembourg index as be the baseline to determine current value.
- The client has the option to receive the profits from the trade in USD or BTC. Can decide that after trade pays out.
